Dear Rob

I wanted to follow up our phone conversation with an email so that you can share with the residents if you wish:

In summary:

- We have 3 paid for permits issued by the council - these cost the practice significant amounts of money, they are not standard visitor passes which I know cost much less.
- I have spoken with the staff who use our permits; 1 parks at the end of Covedale close to Ribblesdale and the other 2 park further away down Ribblesdale
- Our staff cars have been vandalised previously and our staff have been subject to abuse so I don't believe providing the permit numbers would be reasonable
- The staff who use the permits tend to be working a 10 hour shift so asking them to park further away negates the benefits of having the permits
- We have no parking onsite for staff as we prioritise this for patients. Many of my staff would be happy to pay for parking so as to be closer but the Edwards Lane spaces are generally taken by hospital staff earlier in the day.

We absolutely do not wish to upset the residents and if any of my staff are parking in places where it is causing an issue then I would be more than happy for you to send me a photo and I can speak to specific staff members but given that we only have 3 permits and 2 never park on Covedale I am not sure that it is my staff that are causing the problem as you mentioned up to 6 or 7 cars being parked there.

This email address is monitored throughout the day so if there are any issues on a given day then you or the residents can either email in or call the practice and ask for the Operations manager (Ann Bradshaw) or myself and we will be happy to work with you.

Regards
